Important Information About Backing-up Your Locally Stored Files & Folders PLUS Your Browser Bookmarks

This is important for everyone turning in their FCPSOn Device but Returning to Woodson next year

You will start by backing up any files stored on your device or your network drive to your Google Drive. If you are a virtual student and have files stored on the FCPS network drive, you will need to go to **any FCPS** school and restart your laptop while on the FCPS network. This can be accomplished from the parking lot, no need to enter the building. After you restart your device and while you are still on the FCPS network you can follow the steps below to secure the back-up of files from your device and your network drive files to your Google Drive.

How to upload files from the network drive or your device to Google Drive

1. Go to <u>www.fcpsschools.net</u> and log in to your fcpsschools.net account

2. Upload your file or folder:

2A. Begin by pressing the down-carrot button next to "My Drive" towards the top of the screen

2B. Select "Upload files" or "Upload folder," depending on your needs. Navigate to the location of the folder or files you wish to upload and select open.
